

Health Screening Checklist

COVID-19 Health Screening Checklist for CHILDREN

Person conducting screening should maintain 6 feet of distance from child while asking questions. This tool is intended to assist HUHS in screening for COVID-19, but will not replace other communicable disease screening tools or protocols.

Part 1

	YES	NO
Have you been in close contact with anyone who tested positive for COVID-19 or was diagnosed with COVID-19 in last 14 days?	<input type="checkbox"/>	<input type="checkbox"/>
Have you been diagnosed with COVID-19 by a health care provider in the last 10 days?	<input type="checkbox"/>	<input type="checkbox"/>
Have you developed any of the following symptoms within the past 24 hours?		
• Cough	<input type="checkbox"/>	<input type="checkbox"/>
• Shortness of breath/trouble breathing	<input type="checkbox"/>	<input type="checkbox"/>
• New loss or sense of taste or smell	<input type="checkbox"/>	<input type="checkbox"/>
• Have you taken medication in past 24 hours to lower temperature (Tylenol, ibuprofen)?	<input type="checkbox"/>	<input type="checkbox"/>

If YES to any question in Part 1, the child should be sent home.

If NO to all questions in Part 1, proceed to Part 2.

Part 2

Have you developed any of the following symptoms within the last 24 hours?

	YES	NO		YES	NO
Sore throat	<input type="checkbox"/>	<input type="checkbox"/>	Headache	<input type="checkbox"/>	<input type="checkbox"/>
Unusual fatigue	<input type="checkbox"/>	<input type="checkbox"/>	Muscle or body aches	<input type="checkbox"/>	<input type="checkbox"/>
Nausea (<i>sick to stomach</i>) or vomiting▲	<input type="checkbox"/>	<input type="checkbox"/>	Fever ($\geq 100.4^{\circ}\text{F}$) or chills (<i>would indicate fever</i>) ▲	<input type="checkbox"/>	<input type="checkbox"/>
Runny nose or nasal congestion	<input type="checkbox"/>	<input type="checkbox"/>	Diarrhea▲	<input type="checkbox"/>	<input type="checkbox"/>

If YES to 2 or MORE questions in Part 2, child should be sent home.

If YES to 0 or 1 question(s) in Part 2, child may remain at facility.

Child to be sent home

- Child's name, symptoms, and the date symptoms started will be recorded in an illness log/line list.
- Child should be **immediately sent home** to isolate and should be tested for COVID-19.

Child may remain at facility

Child should wash (or sanitize) hands before having contact with other children or staff.

▲Vomiting, diarrhea, and fever—alone or together—should exclude a child from school. However, they do not necessarily indicate the need to test for COVID-19 or for COVID-19 isolation.

Individual is NOT a known close contact to a COVID-19 case:

Individual Symptomatic		No Symptoms
Not tested for COVID-19	<ul style="list-style-type: none"> The individual must remain home for at least 10 days since the first symptoms began AND be fever free without the use of fever-reducing medications for 24 hours AND with improvement of symptoms. Siblings and household members should follow the close contact chart below for exclusion. If diagnosed with another condition that explains the symptoms, such as influenza or strep throat, no isolation or quarantine of close contacts is necessary. Follow guidance from the health care provider and exclusion period of the diagnosed disease as listed on the Wisconsin Childhood Communicable Diseases Wall Chart. 	<p>May attend school.</p>
Tested and negative for COVID-19	<ul style="list-style-type: none"> The individual must be fever free for 24 hours without the use of fever-reducing medications If diagnosed with another condition, the individual must complete the exclusion period for the diagnosed disease as listed on the Wisconsin Childhood Communicable Diseases Wall Chart. An alternative diagnosis is not required. 	<p>May attend school.</p>
Tested and positive for COVID-19	<ul style="list-style-type: none"> The individual must isolate at home for at least 10 days since the first symptoms began AND be fever free without the use of fever-reducing medications for 24 hours AND with improvement in symptoms. Repeat testing is NOT recommended for making decisions about when people can return to work or school. Siblings, household members, and other close contacts should follow the close contact chart below. 	<ul style="list-style-type: none"> Must isolate at home for 10 days after the day the sample was collected. Siblings, household members, and other close contacts should follow the close contact chart below.

Individual IS a known close contact to a COVID-19 case:

Individual Symptomatic		No Symptoms
Not tested for COVID-19	<ul style="list-style-type: none"> The individual must quarantine for 14 days after the last contact with the COVID-19 positive person. If the exposure is to a household member and the case cannot properly isolate away from others at home, the last date of contact may be the last day of isolation for the case. The individual must also remain home for at least 10 days since the first symptoms began AND be fever free without the use of fever-reducing medications for 24 hours AND with improvement of symptoms. The criteria in both of the above bullets must be met before returning to school. Siblings, household members, and other close contacts should also follow this chart to determine quarantine length. 	<p>Must quarantine for 14 days from the date of last exposure before returning to school or day care. If the exposure is to a household member and the case cannot properly isolate away from others at home, the last date of contact may be the last day of isolation for the case.</p>
Tested and negative for COVID-19	<ul style="list-style-type: none"> The individual must quarantine for 14 days after the last contact with the COVID-19 positive person.
